EVALUATION GRID

PA3: Statistical analyses and modeling
Submission date : November 23th, 2023, 23:59
Group no. :

Analysis of travel times and speeds

Presentation of the distribution by year	/2
Filtration method and justification	/1
Test of adequacy to the normal distribution	/2
Subtotal	/5

Analysis of observations and travel times as a function of time

Number of observations and travel times by month	/1,5
Number of observations and travel times by day of the week	/1,5
Number of observations and travel times by time of day	/2
Correlation analysis	/1
Subtotal	/6

Study of factors associated with travel conditions

Add variables	/1
Variable analysis	/1
Construction of linear model and explanation of steps	/2
Model analysis (coefficient and significance)	/1
Analysis of model estimation conditions	/2
Subtotal	/7

General evaluation

Guidelines	/1
Report structure and formatting	/0,5
Spelling	/0,5
Subtotal	/2

Total	**/20**
