

EVALUATION GRID

PA4: Data mining and spatial analysis

Submission date : December 10th, 2023, 23:59

Group no. :

Calculation of indicators and creation of database

Inter-stop time calculation, assumption and justification	/2
Accessibility calculation, assumption and justification	/2
Calculation of commercial speed	/0.5
Calculation of amplitude and number of departures	/0.5
Subtotal	/5

Line segmentation

Application of segmentation method	/1
Analysis of internal homogeneity and inter-class heterogeneity	/2
Statistical analysis of classification	/2
Class mapping analysis	/2
Subtotal	/7

Class analysis

Application of decision tree and justification (branches, leaves, etc.)	/2
Analysis of explanatory factors (which determine classes)	/2
Analysis of prediction quality	/2
Subtotal	/6

General evaluation

Guidelines	/1
Report structure and formatting	/0,5
Spelling	/0,5
Subtotal	/2

TOTAL /20
